

## Benefits:

- Convert a PC into a Thin Client,
- Extend hardware life time,
- Support for PCs up from 500 MHz and 128 Mb RAM,
- PC functionality in a thin client architecture,
- Cost effective,
- Super secure,
- Available in IDE, SATA, and USB-Stick versions.

## Make your PC a TC in a Click!

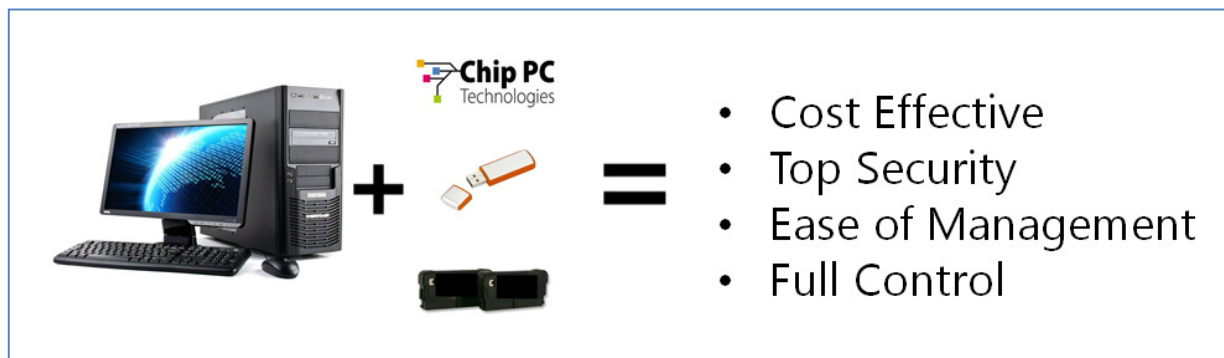

Chip PC PC-to-TC Converter enables you to turn almost any PC into a fully functional thin client in seconds.

Simply Place the component inside the PC instead of the hard disk or connect the USB stick externally.

Reboot the PC and it starts up as a Thin Client.

The PC is then centrally and remotely fully controlled and administrated.

Applicable for old hardware up from 500 MHz processors with minimum 128 MB RAM.

## Technical specifications

### System

Connections	IDE 40 PIN female (IDE version)
	IDE 44 PIN female (notebook IDE version)
	USB-Stick (USB-Stick version)
	SATA (SATA version)

Memory	256MB
--------	-------

### Power Supply

Connections	Over PIN 20 or external cabel
-------------	-------------------------------

### Equipment

Warranty	3 years, extendable up to 5 years
Software	Linux Thin Client OS

## System requirements

Processor	500 MHz or higher
RAM	128MB til 1024MB
Keyboard	PS/2 or USB
Graphic Adapter	Support of all established chipsets
Network	Support of all established chipsets

## Software

<b>Clients</b>	Citrix ICA/XenAPP	•
	Remote Desktop RDP	•
	Xdmcp/Xephyr	•
	X2go	•
	2X	•
	NX Nomachine	•
	GoGlobal	•
Ericom Terminal Emulation	•	
<b>Virtual Desktop</b>	VMware View 4	•
	Citrix XenDesktop	•
	Ericom Webconnect	•
	Leostream Connection Broker	•
<b>Multi-media</b>	Local browser	Mozilla Firefox
	Java/Flash	•
	Media Player (VLC, MPlayer)	•
	VoIP Client (Skype, Ekiga)	•
<b>VPN</b>	Cisco VPN	•
	Open VPN	•
	Shrew VPN	•

## The Company

Since its inception, Chip PC has been a world leader in server-centric-computing. A private company with branches in Europe and the U.S., Chip PC develops and manufactures, top notch, thin, smart and zero clients and management systems.

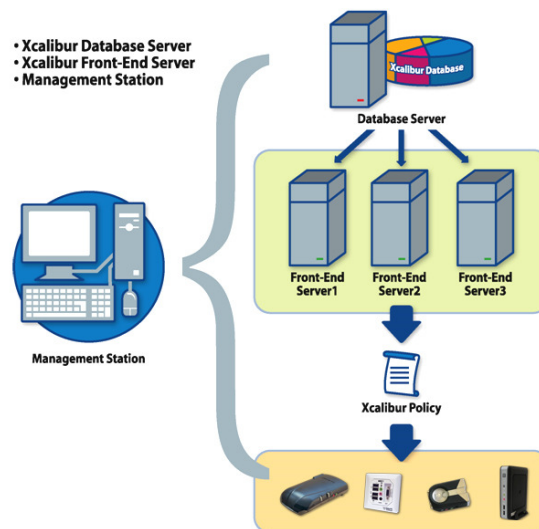

Chip PC's team of dedicated researchers and developers have combined their years of experience to yield novel ideas and deliver an outstandingly innovative family of thin, smart and zero client products.

With the award winning Xcalibur Global management system and innovative thin, smart and zero units, Chip PC maintains a leading market position with its end-to-end solution.

## The End-to-End Solution

Chip PC is aimed at solving the thorny problem of combining intelligent client networking with sophisticated management and control. Chip PC's unique solution constructs a ground-up client network from the revolutionary Jack PC that fits into a standard wall jack, through the NG Series', state-of-the-art, powerful, desktop units and miniature Plug PCs.

These server-centric, revolutionarily designed, units are comprehensively managed by Chip PC's Xcalibur Global. The Xcalibur Global Management System simulates an Active Directory environment with intelligent usage of its management principles of policies and tools and offers flexible management that applies down to the specific needs of every particular client unit or user.
